## Introduction

The OMNIS Smart Report is designed to offer QX Therapists new and improved ways to engage with clients and manage their practice. With built-in capabilities to support your professional needs, the Smart Report sets your current practice model up for greater success.

### Client Session Reports

The right information leads to better understanding. Make informed decisions about your clients' care with access to a complete spectrum of session records. Comprehensive health records of your patients that are accessible to you during the Biofeedback session.

What does the OMNIS Smart Report Guarantee?

- **Client Engagement**

Our software makes health information visual, simple, and engaging, helping you provide better health outcomes. Your clients' reports and comprehensive history available at your fingertips. Review your clients' health reports anytime during your session.

- **Your Own Client Database**

It takes less than a minute to add a new client to your OMNIS Software, automatically recognized by the Smart Report.

- **Access Client Data Anytime**

The Smart Report provides secure storage for your clients' health data. The information obtained during your session is securely accessible to you at any time you need it.

- **Live Consultation Notes**

The Smart Report offers you the chance to log your Notes while running the Biofeedback session, making sure you do not miss an insight, an update or any important information shared or discovered during the session. The Live Notes are automatically saved and available in the Smart Report.

## What areas are covered by the Smart Report?

The Smart Report was designed to automatically cover all relevant information during the Biofeedback session in most of the panels you visit, eliminating the need to save the data separately.

The Smart Report saves data automatically. How? Simply click on a button, get a result or access a panel that generates information, and that means that the Smart Report has already saved it.

The following areas are covered in the Smart Report:

## How does it work?

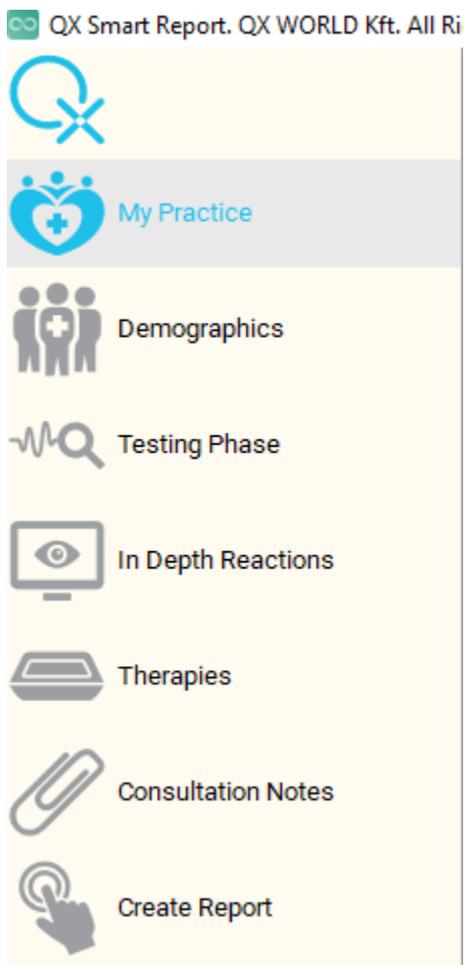

Nothing could be simpler! First of all, go about your session as you would usually do and let the Smart Report do the work in the background. There is nothing you need to click! When you are ready with the session, including the Current Rectifications, go back to the main panel and click on Smart Report, that takes you to the following panel.

There are several options on the left, we recommend you go through all of them and make selections as you see fit for your current client. But don't you worry! Even if at this moment you only choose a few options for your report today, you can come back anytime and access all the data you need! The Smart Report saves everything and shows exactly what you need at that specific point in time.

## QX Smart Report

The QX logo acts as a menu icon, if you click it you will see the menu changing to a reduced one, where only the icons are visible. If you hover over the icons, you will see the name of the menu appearing. Clicking on the QX again will bring forward the extended menu again, like below.

## My Practice – Total Dedication for Human Care

Here you have the option to enter all information pertaining to your Biofeedback Practice. This information will appear on the first page of the report.

### Consultation Notes – Live Notes Recorded for Added Efficiency and Personalization

The Notes feature of the OMNIS gives you the possibility to take live notes during your session, simply by using a key combination (Shift N) wherever you are in the OMNIS.

Bring forward the Live Notes panel wherever you are in the OMNIS, insert your thoughts, insights or recommendations, close it and move on to the next panel. If the opportunity is needed again, use Shift N and the note will come up again, having saved everything automatically.

Each Live Note you take will be saved for the specific patient and specific date of session and can be revisited anytime just like the complete report data.

Here you have the chance to add the Consultation Notes to your Practitioner Report if you wish. Remember, you can access them electronically any time after the session!

If you have not added any notes during the session, you can add them in this section, by clicking on the Log Consultation Notes button.

When you are done with the notes, move to the next icon:

## Create Report – The Best Natural Care for your Clients

Final phase of creating the report, at this stage you only need to click one of the buttons below:

**Create Practitioner Report:** generates the report you have been personalizing so far

**Create Client Report:** generates an educational report that can be handed to your client, for raising awareness and keeping track of changes, as a general support for your client and their lifestyle.

The Client Report includes the following:

### Demographics:

- SOC (Suppression and Oppression to Cure) Questionnaire
- Stress and Detox Inventory
- Simple Biorhythm
- Biorhythm Trends

### VARHOPE:

- VARHO Reactions (Voltage, Amperage, Resistance, Hydration, Oxygenation)

- Pp and Ep (Proton Pressure and Electron Pressure)
- Red VARHOPE Panel Electrical Reactions (Impedance, Phase Angle etc.)

**Emotions:** top and bottom 3 emotions, with a section for making journal entries until next session

**Heavy Metals (a selected few):** with an educational explanation

**Minerals: (a selected few):** with an educational explanation

**Perverse Energies:** top 3 reactions with an educational explanation

**Xenobiotics:** top 3 reactions with an educational explanation

**Nutrition:** a general nutritional educational report

**Stress and Hormones:** an educational report

**Meridians:** an educational report

**Body Scan and Face Therapy:** Reactivity Profile and Aura Snags

**Dental Overview:** Top 3 reactions from the TMJ Muscular Sarcode Panel

The Client Report has no values included, as they are indications for the Practitioner and can be confusing for our clients. The educational report will help them keep track of the most important issues in their session and come back to the next one prepared.

Once you have the Practitioner or Client Report generated, save it by using the Save Icon on the top left corner like below, and keep in your records or send it to your client electronically.

\*Remember: You can access all report data at any time during the session or after!
