# OMNIS Your Portal to a New Dimension

Transition into OMNIS from EDUCTOR64 with the most important screens and changes highlighted below. For further help, check our support section on the website, our QWORLD Youtube channel or contact us directly at <u>help@qxworld.eu</u>.

# Password screen

First thing you will notice is that the Password screen is gone, as when applying the most recent database protection systems and security check, your data is safe without the need to enter a password.

## Some new features include:

New Trivector signatures in the Matrix include:

- The Trivector homeopathic signatures of the C. vaccines
- The Trivector signatures of the C. vaccines
- A whole new range of homeopathic remedies from no. 10933 to 1010984

## **Empty Lines**

The empty lines have been removed but the procedure of adding a new remedy has stayed the same, with the sole difference that the newly added remedies can be found at the end of the matrix when organized by number.

## Matrix Redesigned

The matrix items are not a little higher in order to be more visible.

## **Prepare Test**

The button has been moved to the blue panel on the right

## Subfilters scroll list

The subfilters are moved to the right side of the panel Red VARHOPE Panel shows the item worked on

We no longer see where the little arrow is when we do a Zap or Individual Reaction, but we do see it as a label on the VARHOPE Panel at the very bottom of the panel. In the example below you can see the Hamamelis Virginiana signature.

Some features include:

## The Organize by Value and by Name buttons

The buttons have been removed and now all you need to do is click on the table on No, Name or Value to organize in ascending or descending order.

#### Panel organization

The Risk Panel has been designed in a way that has easy operation and functionality in focus.

# Timed Therapy /Timed treatments

The same procedure is followed here as well, the reorganization in design has been focused on easy use while providing the same features.

Start Degeneration Treatment	Sport Program - Muscle Building	Therapy Settings.	Original default values are chosen by	the computer.
Start Injured Tissue Treatment	Sport Program - Flexibility Stim	Time of treatment in Minutes	2	
Start Adipose Dissolve Treatment	Sport Program - Coordination Stim	Time of a eachent in Minutes	-	
Start Metabolic Repair	Overall Immune Stimulation		In Minutes, Move Bar to Adjust	
Start Auto Hormonal Treatment	Chronic Fatigue Syndrome			
Start Auto Neurological Repair	Treat Bad Behaviour in Children	Power Vector 31		
Start Auto Psych Treatment	Anti-Inflammation, Allergy Therapy	Max Voltage Vector Min	Max Ampera	ge Vector Min
Start Auto Pain Treatment	ElectroChelation Circulation Therapy			
tart Relaxation and Sleep Treatment	Treat Fibrositis			
Start Auto Digestive System Therapy	Stimulate Intellect	Add additional treatment to therapy	Add Additional Therapy

# Modules of OMNIS

## The BIG (Biofeedback Interfaced Graphics)

Do you want to see how your device works in real time? Our Biofeedback Interface Graphics module is here exactly for that! Follow the reaction of your patient, the output of the device, the harness connection and valuable information taken simultaneously from the OMNIS, all at the same time. Using some of the methods of more traditional Biofeedback, the BIG can also help your patient gain balance, train themselves, master their reactions and be more in contact with their inner self and capabilities, all working together to activate the body's ability to heal itself.

## The Body Viewer

Walking the pathway to health becomes so much easier when clients can actually 'see' what needs fixing!

Project visual enhancement with high quality videos during the OMNIS session! With the Body Viewer, you are literally able to offer your patients a 3D experience, using the combined effects of visualization and very specific guided imagery designed to aid the main session as light frequential treatment. A whole library of audio video material is at your fingertips, all amplified with a mix of vibrational, auditory and visual stimuli that will actively involve the client in the recovery process. The powers of guided imagery and positive reinforcement have tremendous effects on general wellbeing, or on a focused specific problem we want to address. The Body Viewer is in constant information exchange with the main OMNIS, auto focusing its subconscious choices using the results you obtain continuously during your session. You can make your own selections or run an automated flow of therapies that gets the most current information from the OMNIS!

## Degen Scan

A Piggyback program that detects subtle energies and allows for the possibility to work on an existing condition, if known, to apply light entrainment. From user friendly design, multiple therapy threads, to scans focused on emotional versus physical causes, the Degen Scan has it all! Degen Scan is built on the same principle as Quantic Biofeedback, helping the therapist find the causes of dis-ease, work on eliminating the stress factors, and building the path back to health from there on.

Degeneration Scan Piggy Back detects subtle energies in the brain of the patient/client, or use the tree to load up the degeneration allready known. This software is owned by Desire Dubounet and QX World KPt. Dependent 1							-	o ×

#### **Disease Dictionary**

Contrary to what its name states, this OMNIS module is anything but your typical library function. Focused on health case, this is a sort of dictionary that translates a condition into multiple ways of natural medicine designed to address it and reduce the stress factors associated with it. Click on an item in the list and you are rewarded with a range of natural therapy and advice, from Chinese Oriental Acupuncture, Electroacupuncture, Behavioral Medicine to the more conservatory Medical Definition and Symptom Check. As it runs together with OMNIS and all the other modules, you then have the option to work on multiple issues at the same time and give your patient the best possible care.

#### Home Use

Intricate part of OMNIS, the Home Use module is "home" to your automated therapy base, quick and easy to use, one of the most favorite modules amongst our therapists. You can personalize a session on the spot, choosing from more than 25 therapy options, with individual timings and an overall progress view. Ideal for returning clients that want to work on specific items, an impromptu client drop by, or even a self-focused session. Outstanding results while being time efficient!

## The Iridology

Complement your OMNIS Software with an additional program that uses the superpowers of Iridology. Working in perfect harmony with your OMNIS, you can simultaneously run the two programs together and use the Iridology to provide light piggyback treatment for an exhaustive range of stress factors. From acupuncture points to specific eye related complaints, the Iridology focuses on stress factors in the following area: Facial, Eye, Gyums, Dental, Quadrant Repair, Eye Hand Coordination, Sacred Geometry, General Anatomy and many more. As easy to use as you can imagine! Choose your point of therapy, double click and let your QUEX device carry out the ideal balancing protocols with the optimal intensity and strength.
